Attachment VI
Admissions Policy Extract for Deconcentration

G. DECONCENTRATION OF POVERTY AND INCOME-MIXING

The PHA's admission policy is designed to provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects.

Gross annual income is used for income limits at admission and for income-mixing purposes.

Skipping of a family on the waiting list specifically to reach another family with a lower or higher income is not to be considered an adverse action to the family. Such skipping will be uniformly applied until the target threshold is met.

The PHA will gather data and analyze, the tenant characteristics of its public housing stock, including information regarding tenant incomes, to assist in the PHA's deconcentration efforts.

The PHA will use the gathered tenant incomes information in its assessment of its public housing developments to determine the appropriate designation to be assigned to the project for the purpose of assisting the PHA in its deconcentration goals.

If the PHA's review of tenant incomes indicates that there has been a significant change in the tenant income characteristics of a particular project, the PHA will evaluate the changes to determine whether, the project needs to be redesignated as a higher or lower income project or whether the PHA has met the deconcentration goals and the project needs no particular designation.

Deconcentration and Income-Mixing Goals

Admission policies related to the deconcentration efforts of the PHA do not impose specific quotas. Therefore, the PHA will not set specific quotas, but will strive to achieve deconcentration and income-mixing in its developments.

The PHA's income-mixing goal is a long-range goal and may not be achieved at any specific time. The PHA will use its analysis of its public housing stock and tenant incomes to provide benchmarks for the PHA.

The PHA's income-mixing goal, in conjunction with HUD's requirement to target at least 40 percent of new admissions to public housing in each fiscal year to "extremely low-income families", will be to achieve HUD's initiatives.

Project Designation Methodology

The PHA will determine and compare tenant incomes of its LRPB tenants.

Upon analyzing its findings the PHA will apply the policies, measures and incentives listed in this Chapter to bring higher income families into lower income developments and lower income families into higher income developments.

The PHA's goal is to have eligible families having higher incomes occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and eligible families having lower incomes occupy dwelling units in projects predominantly occupied by eligible families having higher incomes.

Families having lower incomes include very low- and extremely low-income families. Skipping of families for deconcentration purposes will be applied uniformly to all families. When selecting applicant families for a designated project the PHA will determine whether the selection of the family will contribute to the PHA's deconcentration goals. The PHA will not select families for a particular project if the selection will have a negative effect on the PHA's deconcentration goals. However, if there are insufficient families on the waiting list, under no circumstances will a unit remain vacant longer than necessary.

Income Limit Method

The PHA will review the income limits of all families in all of its sites and will compare income of families to the jurisdiction's income limits.

The PHA will designate as higher income developments those occupied by predominantly families at or above 50% of area median income.

The PHA will designate as lower income developments those predominantly occupied by extremely low- and low-income families.

Attachment VIII

PET POLICY

Chapter 10 of the Admissions and Occupancy book of the PHA explains the policies on the keeping of pets and any criteria or standards pertaining to the policy. The rules adopted are reasonably related to the legitimate interest of this PHA to provide a decent, safe and sanitary living environment for all tenants, to protecting and preserving the physical condition of the property, and the financial interest of the PHA.

The purpose of this policy is to establish the PHA's policy and procedures for ownership of pets in Public Housing units and to ensure that no applicant or resident is discriminated against regarding admission or continued occupancy because of ownership of pets. It also establishes reasonable rules governing the keeping of common household pets.

Nothing in this policy or the dwelling lease limits or impairs the right of persons with disabilities to own animals that are used to assist them.

The basic requirements for residents to own a pet in public housing are as follows:

- 1) The resident must have PHA approval prior to bringing the pet on the premises. This includes having a certification that the pet has had the proper inoculations, licensing, has no communicable diseases and is pest free.
- 2) The resident will be charge a one time fee that is to be collected prior to the pet being brought to the premises. This fee is to be used to defray the cost directly attributable to the presence of a pet.
- 3) The resident must agree to all conditions of owning a pet such as care, cleaning and noise control. This also includes the policy on violations of the pet policy and the potential for terminations if the resident does not comply with the rules.
- 4) The resident may have up to 2 animals depending on the type.

“PROGRESS IN MEETING THE 5 YEAR PLAN MISSION & GOALS”

Region V Housing Authority is committed to providing decent, safe, and sanitary housing to all of its residents. The Authority spends sufficient time on each unit at “turnover” to make the unit “like new.” With Welfare reform, local economy issues, lack of jobs, and the overall push to get individuals employed, the Authority’s turnover has reached an all time high. We anticipate 40 units out of 54 units. The Authority has hired a part time maintenance person to assist our only full time maintenance man and have also hired janitorial assistance on an as needed basis to clean the units. We hope these actions will reduce our vacancies to 3% or less and will continue to monitor the results and make adjustments as our financial condition will permit.

Although our PHAS score reflects high performer status, we will evaluate resident satisfaction in committing our Capital Fund Program monies to increase the customer satisfaction surveys being mailed by HUD.

The Housing Authority is continuing its evaluation of SEMAP and is implementing management controls to evaluate all of SEMAP requirements from unit/Contract Authority lease-up rates to Quality control samples. The Authority continues to provide voucher mobility counseling at our briefing sessions and outreach efforts to potential landlords is ongoing. The Authority is hopeful in receiving high performer status on our first SEMAP score.

The Housing Authority attempts to improve the quality of life and economic vitality through our Deconcentration Policy and Broad Range of Income. We promote self-sufficiency through Partnerships with other local agencies in supportive services to increase independence for the elderly/disabled, and employability of the residents. The Authority wishes to ensure equal opportunity in Housing by appropriate measures in the access of housing, and a suitable living environment.

“RESIDENT MEMBERSHIP OF THE PHA GOVERNING BOARD”

In accordance with 24CFR Part 964, Region V Housing Authority did provide all required notices to the resident advisory board of the opportunity for residents to serve on the governing board. The Authority received no indication from any resident to participate on the board.

Region V Housing Authority is again repeating the requirements of this part. Should we receive notice of interest, such request will be mailed to the Governor of the State of New Mexico for His/Her action who is the only official for appointments on Regional Housing Boards.

“RESIDENT SURVEY FOLLOW-UP PLAN”

SAFETY

Region V Housing Authority strives to maintain and provide safe living conditions both inside and outside the units administered by this agency. The Authority has mailed follow-up correspondence as a result of HUD’s survey requesting all residents to communicate their concerns and perceptions on this issue. If the residents identify areas that need improvement, the Housing Authority will make every effort for improvement within the limits of it’s financial ability.

The Housing Authority has developed a good working relationship with the Police Department and reports all criminal activity to the local police. The Authority has procedures in place for tracking crime and crime related activities. All Police input for making the developments safer will be given a priority in capital fund improvements. Community space is available to further communication between the residents and the Police Department.

The Authority has instituted a resident screening process which denies housing admission to those individuals who do not meet the criteria established by HUD. When Police reports that indicate applicants have a file, NCIC clearance is required prior to occupancy.

The Authority has outlined in it’s lease the expected behavior of it’s residents and all guests with an appropriate level of repercussion for violating the policies in the lease.

In addition to regular annual inspections and repairs, the Authority’s maintenance personnel do a cursory inspection of each unit with the extermination service provided to the tenants on a monthly basis. Any safety issues encountered are addressed on an immediate basis.

The goal of the Authority is to continually assess the safety of the living conditions of it’s tenants and to take corrective action whenever financially feasible.

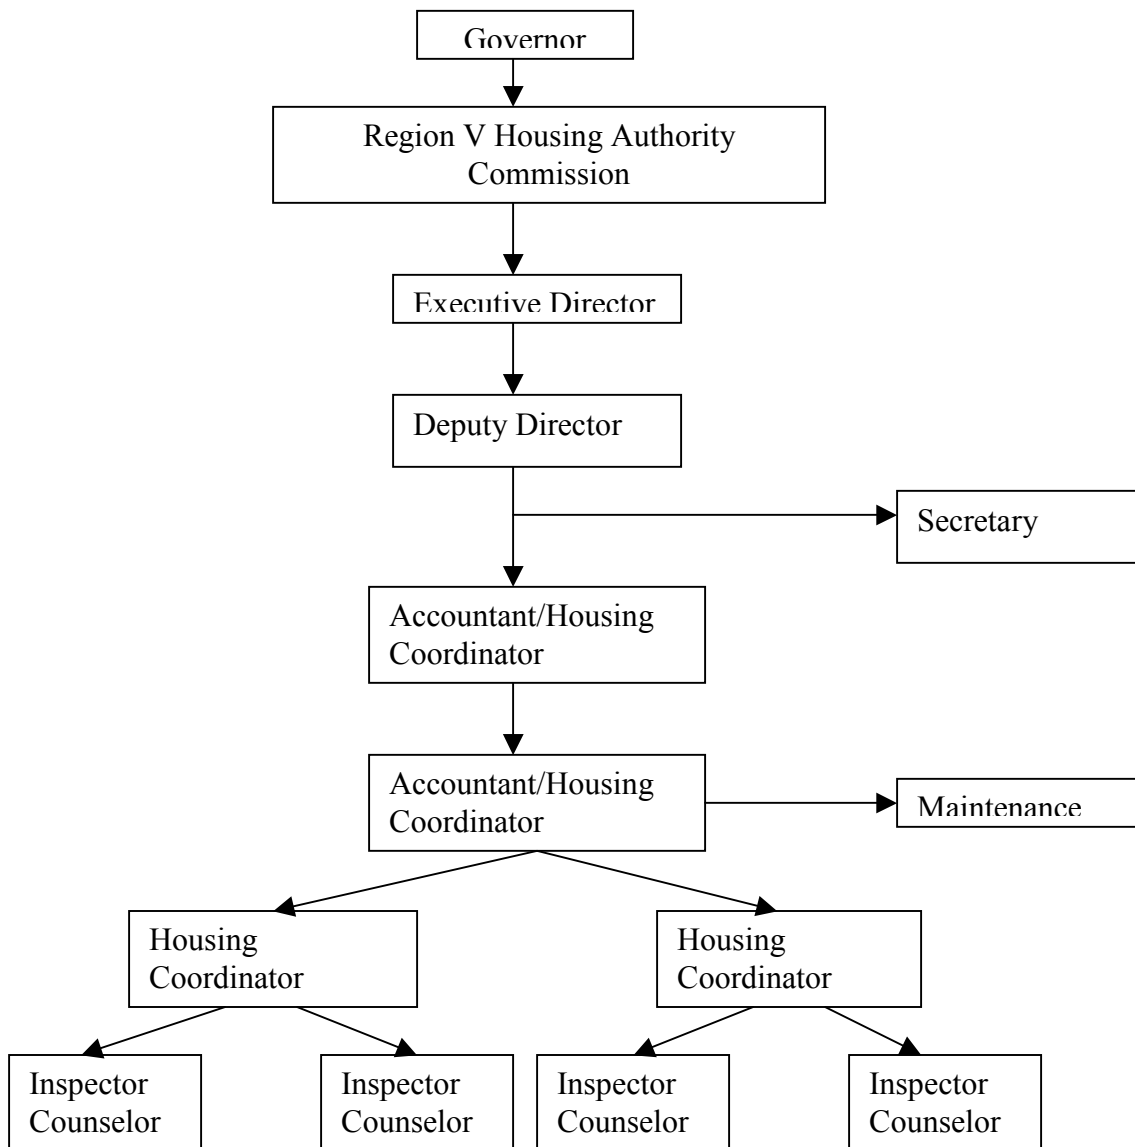

SERVICES

Region V Housing Authority notes that the only “failing score” of this section of the survey was for question 14a, Kitchen Appliance Repair. Due to being in a remote area of the state, there are times when an appliance can be repaired rather than replaced, but parts must be ordered. Historically, the Authority has felt that it is not cost effective to inventory a range or refrigerator. Typically, such appliances will loose their warranty before ever being installed and

potentially never be needed for a unit.

The Authority has and will continue to do it's very best to assure all appliances are working properly and are replaced as necessary. Parts availability seems to have been the issue here and as a result, the Authority will order both a range and refrigerator for inventory should an emergency occur. This action should satisfy any tenants needs in the future.
